To whom it may concern

I, Christophe Demarthe, member of the Association Clair Obscur, co-founder and lead singer of the French band Clair Obscur, testify the great quality and important work of the project Die Wiesenburg. It is essential that the people behind this project can continue their activities in this place in Berlin – Wedding which they managed to transform into a real oasis. This is not only a question of granting a few people to carry on with their project, this is a choice of society.
